Subject: EJ IWG Potential Speakers for Newport News Forum
Attachments: NN_Forum Speaker Outreach tracking_06-08-16.docx; Newport News Forum Agenda_DRAFT_06-08-16 BS.docx

Happy Friday—EPA's Region 3 office is developing a Newport News Revitalization Forum for Sept. 14. The Forum's purpose is to begin to build relationships and partnerships across agencies and with the community to bring equitable development and economic revitalization into reality for distressed neighborhoods in the City of Newport News. We are looking for EJ IWG reps to be potential speakers and/or participants for a networking session. The agenda and draft speaker list is attached. The Forum planning team identified the following agencies:

Panel 1 – Army Corps of Engineers

Panel 2 - DOT, HUD

Panel 4 – Region 4 (CUPP Program)

Networking Session – DOJ, Dept of Ed, USDA

The Ask—Respond by Tuesday, June 14 (Sorry for the short turnaround ☹-- the next Forum planning meeting is June 15th)

1. Please review the attachments and send any recommendations for reps that would like to be a panel presenter and/or attend the networking session.

2. If a Regional agency rep has been identified, please reach out to them as the HQ IWG rep to ensure a two way dialogue between HQ and field staff.

Again, thanks with any assistance you can lend to this Forum and please contact me with additional questions.

Thanks!!

Marsha
